

Panduit Pan-Steel cordless installation tool

May 13, 2010

Panduit boasts its Pan-Steel battery-powered installation tool installs stainless steel, metal locking cable ties 45% faster than conventional hand tools. The tool's automatic flush cut-off allows for one-handed operation that aims to reduce operator fatigue, enhance productivity and improve operator safety. The portable hand tool has a 360° rotating head, offering installation flexibility. Other features include cable tie side entry , controlled tension mechanism, variable-speed trigger and battery indicator.
